EXECUTIVE SUMMARY:

This report covers the Wakili House Construction termed as “*Legal Aid and Advocacy Centre – LAAC Project*” from 2003 to 2019.

The report sets-off by providing an overview of the LAAC project from inception. Little has been documented on the step by step process that TLS leadership went through in early 2000s when the idea was at inception. However, major decisions could be recollected by those who made the decisions are reflected in Part I as significant events. Thus, it reflects on visionary leadership and power of will by TLS members.

Wakili House success has largely been contributed by having the rights architects and project consultants from day one. Part II provides a synopsis on how TLS came into contractual relations with these important people and the navigation on different building designs that would suit TLS needs at the time and in the future.

Part III takes us to the time when the pressure for construction commencement mounted from the membership. The Governing Council between 2012 and 2013 had to make critical considerations on whether the funds and other possible financing options could sustain the project to completion without leaving the Society horrendous debts. Thus several consultants were sought to provide advise to GC and the membership.

Part IV navigates through various fundraising initiatives first being done in 2008 and second being done in 2018. Through the fundraising TLS members and firms generously provided more support than what they were statutorily required too. Partners and stakeholders also became part of the process of Wakili House construction.

Part V reflects on the time when TLS members decided to take the Bull by the horns, that no matter the situation, construction to begin. Thus between the 2014 and 2016 all the snags had to be cleared, particularly between TLS and the Architect, including the choice of designs between the two sets already brought up by the architect. Eventually consensus was reached in 2016 for construction to commence.

Part VI is on the energy consuming tendering process and the eventual coming along of Pioneer Builders Ltd and Flinstone Engineering in a Joint Venture as successful contractors for the project. Part VII is on construction process. Part VIII on project expenditure summary. Part IX is on hand over situation of the building to TLS with more than 98% completion.

PRESIDENT'S REMARKS,

Valued members of the Tanganyika Law Society, Ladies and Gentlemen,

I and the Governing Council I chair feel deeply privileged to be the leadership handling over the building to the legal community and Tanzania public. Behind us though, TLS leaders have done tremendous jobs in successive periods and confronted very difficult decisions. We can now look 15 years back and celebrate the visionary leadership that our Society has been blessed with. With the completion of the building, we get a clear picture of how each Council's vision uniquely contributed to the common dream. At times bold decisions have dragged Councils and Presidents to the mud, but we celebrate such decisions today because we have tangible results from their decisions.

The level of commitment by individual members for more than 12 years has been exemplary. We have often said this in our meetings: Wakili House has been built from members contributions by 100%. Recently, Governing Councils have had fears that our coffers do not provide us the level of comfort to complete the construction and the thought of a bank loan kept ringing in our minds. Paradoxically, our members told us in April 2018 at Arusha, that they wouldn't wish to be told there are indebted to certain bank. We then took it upon ourselves to increase the contribution levels nearly tenfold for each member. That was exceptionally bold.

I would not pen off without mentioning the Secretariat team which has been on the edge throughout this period and has delivered to the wishes of the TLS membership. They have diligently overseen the project to completion. They really deserve applause.

My gratitude also goes to the architect and his team of project consultants, and the contractor and sub-contractors. They have also done a tremendous job. DATF trustees are worth mentioning here. We have really found favour in their eyes.

Certainly, Wakili House puts us in another level never achieved before by many Law Societies and Bar Associations in Southern, Central, Western and most Northern Africa. We have set standards. We dared to dream and we have all reasons to dream bigger than this.

With those few words, I thank everyone who has supported this course whole heartedly. I pray that the Almighty GOD keeps our big dreams alive so that the future of the legal profession has something to look up to and be proud of.

I thank you,

Rugemeleza Nshala
President - TLS

CEO's Note,

It is with great pleasure and honour that I present to you this report that somehow concludes the long journey that our association has endured towards erecting Wakili House. This report explains what transpired for us to be celebrating today. But I would not say much about that. However, I would wish to look at what lies ahead after completion of the report. GOD willing, TLS can do more wonders just by having Wakili House.

As the name goes, Wakili House has to harmoniously reflect the theme befitting the legal profession. Small as it is, the building can host a number of programmes and service with huge impact to the legal profession, judiciary, government, parliament the public and all stakeholders. Think of Legal training Institute, international arbitration centre, Wakili SACCOS or Wakili Bank, Wakili television, Legal Aid Centre, Legislative Advocacy Centre, Wakili Press and Commercial entity to sale TLS goods.

We have set up TLS Property Trust and it has already been registered. In time they will take charge of Wakili House and ensure that TLS acquire more properties through this one.

We have already obtained land in Dodoma, and asked for more. Plans to construct other properties are being considered by the Council. Important also, we intend to acquire land in all TLS Chapters in the next few years. All this is a living proof that Wakili House has triggered vigorous energy with us to dream above Wakili House itself.

So, we know now that we really have abilities to define our future pretty well. One of the reflective moments I enjoy is when I imagine the inexhaustible capabilities that individuals have to solve their own problems. Look here, we started Wakili construction in 2016 with hardly TZS 600M in our account that had been collected for 9 years. A few months later we realised we are in deep trouble to honor our contractual obligations. In immediately we all thought deep and deliberated together on how to solve this in a year or so, we again rose more than 2.5B on our own. Can we really doubt our capacity to solve our own problems?

That being said, I would wish to close by conveying my heartfelt appreciation to TLS leadership, members, partners, and all stakeholders. Special thanks to team at the Secretariat who have worked tirelessly to achieve this dream.

I humbly submit the report

Kaleb Lameck Gamaya
Chief Executive Officer

PART 1:

PROJECT INCEPTION AND PROPERTY ACQUISITION:

1.1 Background to the Wakili House Project:

Tanganyika Law Society (TLS) represents, promotes and supports over 6,000 Advocates in Mainland Tanzania. TLS was founded in 1954 by an Act of Parliament that came into operation in January 1955.

The construction of “Wakili House” is an idea conceived way back in 2003 when TLS applied¹ for an office building from the National Housing Corporation (NHC). Through the assistance of its members led by Victoria Mandari, TLS was granted joint venture with NHC to redevelop the house or erect a new building on Plot. No 2182/39 and Plot No 2182/26 along Garden Avenue, within the city centre of Dar es Salaam on 31st January 2003. TLS confirmed the proposal on 20th August 2003 and informed the Director General of NHC that the structure on the plot was occupied by the Wildlife Conservation Society of Tanzania who had also expressed desire to enter into the joint venture.

Sometimes on the 8th September 2003, TLS, through a letter with reference number NHC/GEN/171/4/AMM, was informed by the NHC that the confirmation on the acceptance of the joint venture proposal was delayed and advised to submit within a short time a required proposal (write up) together with the sketch drawings for further consideration and approval. A follow up letter was made on the 23rd March 2004² whereby TLS confirmed the acceptance of a joint venture proposal and undertook to submit to NHC a project write-up together with sketch drawings in the following six weeks. On 8th April 2004, NHC reconfirmed to TLS that it was still holding the offer in favour of TLS and argued TLS to submit a proposal immediately for further consideration and approval. Nevertheless the intended joint venture could not materialise.

1.2 Acquisition of a House at Plot No. 390 Regent Estate:

From 2003 onwards Wakili House Construction had been made concretely a standing agenda of the TLS. The idea of a joint venture as earlier planned was not implemented as planned. Alternatively, in 2006 the TLS Governing Council under the leadership of Charles Rwechungura³ made a decision for Tanganyika

1 The application for a joint venture with NHC was made directly to the Director General of National Housing Corporation by Thomas Bashite Mihayo who was the President of Tanganyika Law Society.

2 The follow up letter was made by Kibuta Ong’wamuhana who succeeded Thomas Bashite Mihayo

3 President of the Tanganyika Law Society for the year 2006/2007

Law Society (TLS) to purchase a plot at Chato Street, Regent Estate, plot number 391 at a tune of Tanzania Shillings (TZS) One Hundred and Eighty Million (180,000,000/-). The financing came through TLS own funds supplemented by a loan of TZS 70,000,000/- from Exim Bank. The plot measured 953 square meters.

At the time of purchase, Regent estate was a high-income residential suburb that made home to prominent political figures in the country. When the Council made a decision, to construct a 4 storey Wakili House in 2007, it was very much in harmony with a stretch of bungalows in Chato Street. In fact Wakili House would, at the time, become a transforming icon in the suburb. A decade down the lane has witnessed the mushrooming of high rising buildings that progressively transformed Regent estate from residential to a business district accommodating major mobile phone operators, financial institutions, supermarkets and the Iconic National Housing Morocco Square.

1.3 Choosing Project Name: *Wakili House* Versus *Legal Aid Advocacy Centre (LAAC)*:

After acquiring the plot, the Governing Council made a decision to construct a state of art facility. A name was proposed for this facility as *Wakili House* with the intention that it would represent all lawyers in the United Republic of Tanzania.

However the name would later change because of the dynamic role of the legal profession as a service and as a business. Between 2008 and 2010 the Government enacted some major statutes that would tilt the fight for the rights of vulnerable groups in the Country including women, children, people living with HIV AIDS, and the rights of disabled. TLS became increasingly involved in the fight for rights of the marginalized groups at this time. There was also huge financial support to the course through the Legal Sector Reform Programme. For that reason a decision was made by the TLS Governing Council in 2009 to change the name of the intended building from *Wakili House* to *Legal Aid Advocacy Centre (LAAC)*. The driving motive was to reflect the role of the Law Society serving vulnerable and marginalized groups in Tanzania, while at the same time championing human rights advocacy and legal aid policy and law reforms. Since then *Wakili House* and *LAAC building* have been used interchangeably.

Legal Aid and Advocacy Centre (LAAC) is a project aimed at the construction of a building that can provide enough space to house the ever-increasing TLS statutory role of providing legal aid, human rights advocacy, seminars and workshops, commercial arbitration and mediation, legal reform and other administrative activities. The LAAC project is popularly called “Wakili House”.

PART 2:

DEVELOPMENT OF CONCEPTS AND DESIGNS OF THE LAAC/WAKILI HOUSE:

2.1 Engagement of the Architect, Quantity Surveyor and Presentation of Designs:

In 2007, the process to hire an architect and consultant to oversee the development of the project was initiated. Three Companies, namely: Inter-Consult, Landplan Icon and Envirolink expressed interest to undertake the project by submitting their technical and financial proposals. After considering sketch designs and cost estimates, Envirolink was selected to serve as Architects and Consultant.

Therefore, the decision to appoint Envirolink to undertake architectural designs on consultancy basis to facilitate construction of the Wakili House was made way back in January 2007 following an advice of the Wakili House Task Force⁴ to the Council. On 10th March 2007 the Architect was asked to submit a sketch design proposal for the proposed Tanganyika Law Society building (Wakili House) to be constructed at Plot NO. 391, Chato Street, Regent Estate in Dar es Salaam.

The Architect presented a Sketch Design Proposal and Preliminary Cost Estimates on 24th April 2007 to enable TLS to make final decision on the project. TLS negotiated and then formally engaged Envirolink Architects on a consultancy basis to initiate an undertaking of architectural design, structural engineering, service engineering, and quantity surveying during the *design* and *construction* stages of the Wakili House at Plot No. 391, Chato Street, Regent Estate in Dar es Salaam.

Upon negotiation, an estimated professional cost of TZS 90,000,000/= i.e. 9% was calculated and agreed pegged on a total estimated construction costs of TZS 1,000,000,000= . Therefore, this was an agreed cost of the assignment that TLS would pay as professional fees for the services provided. As such, the agreed fees were supposed to be valid for a maximum construction period of two years, and May 2008 was projected to be a commencement of construction time.

Following that mutual agreement, a fee note, described as Fee Note No. 1 of TZS 10,800,000= inclusive of 20% VAT was raised against TLS and on the 10th July 2007 TLS full settled the said fee note. Together with the fee note, a standard

⁴ Members of the Wakili House Task Force included Charles Rwechungura who was the President of the Tanganyika Law Society, Dr. Fauz Twaibu-Council Member, Fredrick Kibodya-Honorary Treasurer.

form “Form of Agreement Terms and Condition for the Appointment of an Architect for use by the Architect and Quantity Surveyors Registration Board” was submitted for TLS perusal.

After settlement of the fee note in full and by using a sketch design proposal, the Architect initiated the designing process by obtaining a Planning Consent from Kinondoni Municipal Council, preparing structural design working drawings, applying for building permit, preparing the Bill of Quantity and preparing Bid documents that could be used to invite building contractors.

Available records show that on 25th February 2008 an application for change of plot use from residential to professional office use was lodged to Kinondoni Municipality and the same was granted on 26th August 2008. On 11th of September 2008, the Architect applied for a Planning Consent to the Kinondoni Municipal Director for and on behalf of the Tanganyika Law Society. Together with the application letter, the Architect attached a copy of Certificate of Occupancy, copy of a letter that granted change of use on Plot No. 391, copy of land rent payment and the project design proposal.

On September 12th, 2008, the Architect requested the TLS Task Force to engage the Quantity Surveyor to prepare a fresh cost estimate appraisal as the first cost estimate was not realistic due to long lapse of time occasioned by various factors mentioned in a letter to render the first estimate to be below the construction costs. On 24th September 2008 the Architect presented a Revised Cost Estimates and Sub-consultants Particulars to TLS. The revised Cost Estimates indicated the total cost of TZS 1,744,578,609 VAT inclusive.

Basing on the adjusted cost estimates, on the 29th October 2008, the Architects presented the 2nd Fees Note of TZS 13,900,000= . On 11th December 2008 a meeting (presided over by the President) was held at TLS offices and agreed on various issues as follows:

- i. The location of the proposed Legal Aid and Advocacy Centre (LAAC) was projected to be somewhere along Sam Nujoma Road within the Law School of Tanzania (LST).
- ii. In spite of LAAC Plot change, the approved design proposal was not expected to principally change much. Some minor changes were anticipated to be on the ground floor level only, to pave way for car parking.
- iii. A legislative change was projected by April 2009 to the TLS Acts to facilitate exemption from VAT.

- iv. Architect's Fee Note No. 2 dated 29th October 2008 was approved for settlement by TLS.

On the 18th December 2008 TLS honored payment of the Architect's Fee Note. No 2 through cheques payment to facilitate progress of the project. On 24th November 2009 a meeting was held at TLS office to discuss the development of the LAAC Project and to authorize the contractors to proceed with the application of the Building permit. On 18th February 2010 a meeting was held between the Architect and Chairman of the Tanganyika Law Society Construction Committee to steer the implementation of the LAAC Project. Some of the issues agreed were as follows:

- i. That the project site reverts to plot No. 391, Chato Street, Regent Estate, Kinondoni Municipality, Dar es Salaam
- ii. The design version with the main entrance at Ground Floor, 2 staircases and half of the rear floor left open for car parking to be left for construction;
- iii. The proposed building to retain the original height of 4 floors. i.e. ground, 1st, 2nd and 3rd floor;
- iv. Prepare working drawings required in an application for building permit in 2 months time, and process the building permit in another 1 ½ months that would take up to May 2010; and,
- v. Contractor to proceed with bidding process to appoint suitable contractors to execute the project in another 1½ months and commence the project once the Quantity Surveyor completes the Bill of Quantities and Bid documents.

On 14th June 2010 an application for a Building Permit was lodged to the Kinondoni Municipal Council and payment of TZS 365,000=was paid as Building Permit application fee.

2.2 Change of Designs:

Initially, the plan was to construct three-story building but as time elapsed and members floated new ideas, the initial sketch design that were to cost TLS around 1 billion Tanzanian Shillings in construction were shelved. As such, on the 2nd May 2011, a request for modification of the Architectural Drawing for the Tanganyika Law Society LAAC Project was presented to the Architect to facilitate an additional storey that will create space for leasing as an additional source of income to support the maintenance and repair of the LAAC; and create additional parking space for the TLS Staff, visitors and so on. The Architect was

further required to advise on time required to modify the architectural design, cost implication thereof and revised cost estimate of the project⁵.

As it can be noticed from the proceedings above, before the change of plans, Envirolink as per the contract it entered with TLS had secured sub-contractors in 2008 while TLS secured an approval for the changing the plot use from residential to office and commercial use in that same year. With the changes in design, in 2011, TLS halted the design and planning of the LAAC project pending a financing option, a research report that was commissioned and delivered in that same year.

Following the request to modify the design, on the 23rd May 2011 the Architect responded to the request and advised that in order to fulfill the requested additional wishes of TLS, the Architect and sub-consultants would need to re-design the project due to some factors that includes a design for a basement which needs a well-conceived grid arrangement, raising the ground floor up to 1200mm and making an additional floor for leasing. In this aspect, the Architect asked for TLS comments and imminent instruction.

The Architect further advised that since they had completed the designing of all the would be abandoned scheme, and only construction contract management and inspection of the work services were to follow, it would be prudent if TLS settles the 75% of the remaining sum negotiated at TZS 130,000,000/= as full professional fees in October 2008 at TZS 97,500,000/= minus TZS 24,750,000/= already paid and leave an outstanding fee amount of TZS 74,750,000=.

Following the two parties negotiation on the outstanding fee of TZS 74,750,000= it was clear that since TLS has decided to change the structure, the fee burden would increase. Therefore, the Architect granted to forego TZS 24,750,000 and requested to be remunerated TZS 50,000,000= as outstanding amount for completed service.

In February 14, 2012 the Architect presented to TLS Outlined Proposals and Miscellaneous Project Issues for a new design scheme of the proposed LAAC project. The new design scheme outlined among other things, Basement Floor for 14 car parking, ground floor to accommodate the reception lounge, 1st floor for TLS office, 2nd floor for renting and 3rd floor for a conference halls. The same presentation included the proposed construction estimate at TZS 3,078,000,000=.

5 The request was tabled by the Council under the leadership of Mr. Francis Stolla- the then President of the Tanganyika law Society.

On the 1st March 2012 TLS settled the agreed sum of TZS 50,000,000 excluding VAT for the abandoned project through bank transfer. However, since neither TLS nor LAAC project had VAT exemption, the actual amount supposed to be paid was TZS 59,000,000= VAT inclusive.

In June 2012, the TLS Governing Council in its extra-ordinary Council meeting discussed about the progress of the project with the aim of kick-starting it again. Among its resolutions, were as follows:

- a) Reaffirm Envirolink as Architect Consultant,
- b) Appointed a LAAC Committee that constituted the President, Edson Mkisi-Honourary Treasurer, Ms. Deborah Mushi-member, Ms. Regina Sinamtwa-member and the CEO.
- c) Directed the amendment of the building permit,
- d) Directed the securing of property manager to look for tenants for the proposed project, and,
- e) Directed the commissioning of an expert to carry out financial projections (project business plan).

On the 1st August 2012, TLS informed the Architect on the agreement reached by the LAAC Committee⁶ to proceed with him on the project. In addition, the Architect was asked to write a letter of approval and sign the contract to facilitate project implementation. The instruction further informed that, the LAAC Project had to be carried in a crashed/compressed schedules so that by September 2012

⁶ This time around the LAAC Construction Committee was reconstituted and comprised the following members: Francis Stolla-President, Edson Mkisi-Honourary Treasurer, Ms. Deborah Mushi, Ms. Regina Sinamtwa and the Chief Executive Officer-Secretary.

all documents (including detailed scheme and Bill of Quantities) for project to start physical construction/loan securing to be in place.

In 2013, with the intention of safeguarding the project oversight and supervision, the TLS Governing Council formed the LAAC steering Committee and appointed members to oversee the project implementation. As such, a Committee of ten (10) members lead by the President was appointed⁷.

Lastly, throughout the process there were other undertakings/instructions to some members that would facilitate construction of the LAAC project. These undertaking included a Research undertaking on Financing Options for the LAAC project and development of a Business Plan/Business/Proposal for the development of the LAAC project⁸.

7 Members of the steering committee included; Mr. Francis Stolla-President, Edson Mkisi-Honorary Treasurer, Godwin Musa, Ms. Regina Sinamtwā, Mr. Charles Rwechungura, Mr. Chieldrick Komba; Kalolo Bundala; Joyce Maselle; Ms. Ndigwako Joel; and Juveniles Motete.

8 TLS engaged the Chacha Gebani to undertake a Consultancy work at the tune of TZ 5,000,000= so as to study the viability of the project and come out with plans or options that will facilitate implementation of the project.

PART 3:

EVALUATION OF FINANCING OPTIONS AND TEMPORARY SUSPENSION OF CONSTRUCTION:

In 2013, the Governing Council hired a Consultant to develop a business plan for the LAAC Project. The Governing Council decided to hire a Consultant so as to ascertain the viability of the project. The rationale was to get empirical data on the whole construction process costs. The Consultant upon completion of the analysis work, proposed a number of options to substantiate the viability of the LAAC project. The options were as follows:

1. Constructing the proposed building by going into partnership with private developers;
2. Using bank loans to construct the office building (5 years repayment period-with one year grace period)
3. Using bank loans to construct the office building (10 years repayment period-with one year grace period).

Option 1: Constructing the proposed building by going into partnership with private developers;

This option was based on the following premises:-

- a) The government allocates land to TLS to construct the LAAC building at no cost to TLS. This option was calculated based on the request, which was made by the TLS president in 2013 Law Day followed by the application to the Ministry of Lands.
- b) TLS enters into partnership agreement with a Real Estate Developer in which case the Developer constructs offices which will accommodate TLS and leave enough space to be rented out to other customers.
- c) The developer operates the building for agreed number of years and then the ownership reverts to TLS in due course.

Advantages

- a) There would be small financial burden on TLS for construction of the office building.
- b) This would give TLS an opportunity to own a state of the art building

(investment) in the long run.

- c) TLS would get a spacious office for its operations.

Disadvantages

- a) It depended on how quick the government would allocate land to TLS.
- b) It would take a couple of years before the building the ownership goes back to TLS.

Option 2: using the bank loan to construct the office building (five years repayment period with one year grace period)

This option was based on the following premises:-

- a) It was estimated that the building would cost TZS 2,542,428,000/-
- b) The land would be used as security for the loan.
- c) The Loan would attract 18% interest rate.
- d) The loan to repaid over six years (5 years from year two, allowing 1 year grace period which would be used for construction).
- e) Total revenue of TZS 258,000,000/- was expected to be collected per annum as opposed to a bank loan repayment amount of TZS 783,000,000/- per annum.

It was worth to note that this option was not viable as TLS would not be able to service and repay the loan in six years.

Option 3: using the bank loan to construct the office building (10 years repayment period- with one year grace period)

This option is based on the following premises:-

- a) It would cost TZS 2,542,428,000/- to construct new building.
- b) The land would be used as security for loan.
- c) The loan would attract 18% interest rate.
- d) The loan would be serviced and repaid over 10 years (10 years from year two allowing 1 year grace period which would be used for construction).
- e) Total revenue of 258,000,000/- is expected to be collected per annum as opposed to bank loan repayment amount of TZS 529,000,000/-.

It was worth to note that this option was also not viable as TLS would not be able to repay the loan within 10 years.

From the analysis of the above options it was recommended that TLS should

consider option 1. Because teaming up with private real estate developer to undertake the project under the public-private-partnership (PPP) model was easy to undertake for the Society.

In the course of implementing option 1 three real estate developers were identified and consulted for the purpose. As such, in 2013, the estate developer consulted for initial discussions. These estate developers were Mutual Developers; ESTIM Construction and Afri Developers. It was found out that Mutual Developers were under liquidation; ESTIM Construction informed the TLS Secretariat that they had enough in their plate and therefore could not take more than what they had in their projects. Afri Developers visited the Chato Street, took measurements and responded that they were interested in big housing projects for sale to companies and individuals. Thus, TLS had to consult the National Social Security Fund (NSSF) and the National Housing Corporation under public-private-partnership option. However, no tangible response was provided by these institutions.

Renovation of the House at Chato Street

While contemplating the above recommendation, as a short term measure, the governing Council resolved that the TLS House along Chato Street should be renovated and Secretariat move in upon expiry of rent contract on 31st July 2013 at Ruhinde Street Office, Ada Estate. A contractor was hired through competitive process. On early June 2013 renovation work commenced and was completed before the end of July 2013 allowing TLS Secretariat to move to Chato House by 30th July 2013.

As such the renovation work expenditure plus the relocation cost amounted to TZS 97,594,859= (*Say ninety seven million, five hundred ninety four thousand eight fifty nine Tanzanian Shillings*). The fund to renovate the house came from the general fund account (i.e. members' subscription fees). The Governing Council used the annual rent cost at Ruhinde Street which amounted to TZS 62,400,000= (*Say sixty two million and four hundred thousand Tanzanian Shillings*) as a justification for renovation works. In the wisdom of the Governing Council, the renovation works and moving into the renovated building would later prove to be a huge serving for TLS in terms of annual rent paid.

PART 4:

WAKILI HOUSE FUNDRAISING:

Fundraising for the construction of Wakili House was first resolved by the Council in 2007. By then it was made voluntary contribution by TLS members as resolved by the Governing Council. To realize the plan of constructing the Wakili House, the Society in its Half Annual General Meeting sitting in Dodoma in August 2008 resolved to do two things. One is to initiate the fund by each member contributing to the fund a total of TZS 50,000 in each year. Two, was to conduct a fundraising event towards construction of the House. Thus the first major fundraising event was planned in 2008. As further step in 2009, the General Meeting of TLS made it compulsory for every member of TLS to contribute a fixed amount of TZS 50,000 annually towards the construction of Wakili House.

4.1. 2008 Fundraising Event:

As such, the fundraising event was conducted on the 31st of October 2008 at the Karimjee Hall in Dar es Salaam and graced by His Excellency Dr. Mrisho Jakaya Kikwete, the President of the United Republic of Tanzania. A total of TZS 100,462,000 and US\$ 2,200 was collected from the event out of TZS 201,697,000 and US\$ 5,400 as total pledges respectively. A list of contributors in this fundraising event is reflected in the table below:

Name	Pledged (TSH)	Paid (TSH)	Pledged (USD)	Paid (USD)
Andrew Consolatha	50,000	50,000		
Abenry & Co. Advocates	5,000,000	500,000		
Adeline Macha	50,000	50,000		
Asha Nasoro	50,000	50,000		
Akiba Commercial Bank	500,000			
Annamary Kavishe	50,000	50,000		
Apollo Maruma	50,000	50,000		
Armando Swenya	50,000			
Asina Omari	300,000	300,000

TOTAL VALUE OF IN-KIND DONATIONS	81,903,000	153,000		

4.2. Members Annual Contribution

On the other hand, members' contribution started in the same year. However, the response of members' contribution for the years 2008, 2009 and 2010 was notably poor. For instance, collections from the first three years (i.e. 2008, 2009 and 2010) were as follows:-

S/n	Year	Collections
1.	2008	105,406,750
2.	2009	26,460,000
3.	2010	<u>3,392,000</u>
Total		<u>135,258,750</u>

It is from the above trend that made the Governing Council in one of its meeting in 2011 to resolve that LAAC contribution should be part of the of the annual subscription fees for each member when renewing his/her practicing certificate.

Annual subscription fee regulations were subsequently amended in 2011. As such, the decision improved the status of contribution as it can be seen herein below:-

S/N	YEAR	COLLECTIONS
1	2011	53,400,000
2.	2012	109,123,000
3.	2013	118,709,000
4.	2014	<u>129,822,000</u>
Total		<u>411,054,000</u>

In 2014 the Governing Council made a decision to put the LAAC funds into a fixed deposit so as to ensure there is no loss in value of the funds and that interest is earned from fixed deposit. For example in 2015 TZS 240,000,000 was taken from the fund balance and put into fixed deposit at Barclays Bank for one year which earned interest of TZS 33,600,000 at a rate of 14% per annum.

In 2016, the Governing Council made further decisions that during the tendering, and shortlisting process LAAC funds should not be kept in fixed deposit again but should rather be put in a call account so as to continue earning interests. Unlike fixed deposit, Call Account would allow withdrawals by making a 48hrs notice of withdrawal intention to the banker/financial institution. In light of the above, the TLS managed to get three different rates from two banks and one financial institution for investment into call account as shown below:-

s/n	Bank/Financial Institution	Rate	Commission Charged	Net Interest
1	Bank M Tanzania PLC	10%	Nil	10%
2	Tanzania Women's Bank PLC	12%	Nil	12%
3	Optima Corporate Finance (who will invest the funds at Commercial Bank of Africa).	15%	1.5%	13.5%

Basing on the above table it shows Optimal Corporate Finance offered the highest interest rate compared to the two banks. However, for interest of security, the Council opted and approved to deposit some of the LAAC fund into a call account at TWB Bank on the interest rate of 12% per annum. Therefore, taking interest rate as decision factor the Council⁹ approved the option to invest

9 4th Ordinary Council held on 12th February 2016 at the Tanganyika Law Society Council's Chamber

the funds with Tanzania Women's Bank (TWB) on security grounds. That is to say if out of available balance of the fund, say, TZS 450,000,000 is invested, a monthly net interest income of TZS 4,556,250¹⁰ was expected to be earned which would then serve as additional funding to the construction works. The LAAC funds were then transferred to the call account for a period of one year.

4.4. CRDB Bank Loan:

In April 2017 TLS management initiated negotiation with CRDB Bank for a loan of TZS 2,000,000,000/= which was to be repaid for a period of 15 years at interest rate of 17% per annum. By April 2018 documentation was complete for a loan amount of TZS 2B and a green light was given by Governing Council in April 2018. However, TLS members at the Annual General Meeting in April 2018 voted against taking a bank loan because the loan amount plus interest brought about a total of TZS 6,000,000,000/= that would be paid back to CRDB and the building itself would serve as security. The members were of the view that this would bring a big risk to the institution. For that reason TLS members committed to finance the construction of members contributions only and any other Society's funds. The Governing Council was therefore directed to devise the best ways to achieve the same.

4.5. 2018 Fundraising Campaign:

After the failure of the bank loan, TLS management requested for a Council resolution to conduct fundraising campaigns once again and it was granted in May 2018. Thus, in August, September and October 2018 TLS organised a fundraising dinners in Dar es Salaam (2) and Arusha(1). The fundraising dinner was also conducted in all TLS Chapters. The fundraising dinner in Arusha was graced by Mr. Ali Mufuruki as the chief guest and the late Ephraim Kibonde as the mobiliser. Several merchandise were sold in the event including leading law books provided by Law Africa and Mkuki na Nyota. The table below shows the pledges and amounts collected through the fundraising campaigns:

2018 HAGM - FUNDRAISING DINNER FOR LAAC						
S/N	NAME	AMOUNT PLEGGED		AMOUNT PAID		REMAINED BALANCE
		TSHS	USD	TSHS	USD	TSHS
1	TLS Secretariat	15,000,000		15,000,000		-
2	Aisha Sinda	1,000,000		1,000,000		-
3	FK Law chamber	3,000,000		3,000,000		-

10 $TZS\ 450m \times (15\% - 1.5\%) / 12 = TZS\ 5,062,500 /$, less 10% (e/duty) on earned interest; $TZS\ 5,062,500 \times 90\% / 12 = TZS\ 4,556,250 /$ -

4.6. Once To Go LAAC Contribution:

In April 2018, the TLS AGM resolved that Tanganyika Law Society should not secure loan from CRDB Bank for being expensive and burden to the members. In the alternative, the AGM resolved that further that the governing council should find means of raising funds to complete the construction of WAKILI HOUSE without delay through membership contribution.

After projection made by finance department, it was found that in order to complete the construction every member was suppose to contribute the amount of 50,000 per year in ten (10) years.

In order to do away with that challenge the Governing Council decided to establish a scheme of “ A ONCE TO GO LAAC CONTRIBUTION” where by members with two (2) years of practice and above were suppose to pay four Hundred thousand shillings (400,000/=) with exemption of two years.

The Governing Council being cautious of the imminent risks of default to the contractual obligation took up the following measures, among others;

- i. Made a resolution that member with two (2) years of practice and below they were asked to pay 200,000 and for those with three (3) years and above they were asked to pay 400,000 immediately as a once to go LAAC Contribution.
- ii. And secondly engage with the DATF Trustees for a possible loan to aid continuity of the construction without default.

4.7. Deceased Advocates Trust Fund (DATF) Loan:

As said above, the governing council made a decision to obtain a loan from DATF in May 2018.

A request was then sent to DATF for a free interest loan of 600 million payable in two years. After a thorough discussion with the DATF Trustees a loan was obtained at a tune of TZS 400M in May 2015 with a repayment period up to December 2019, at the interest of 10% per annum. The loan was again increased by TZS 120M in August 2019 upon request by TLS to enable the settlement of the last Certificate.

The DATF LOAN was obtained at a tune of TZS 400M and shielded the project for several months between May to October 2018. However due to slow pace of members contribution to the Once to Go LAAC, an Executive decision was made that tied Once to go LAAC contribution with the renewal of Practice Certificates. This measure help much amount collected help to clear all ten (10) Certificates from the contractor , TLS has paid in fully a total of TZS Two Billion Two Hundred and Twenty Six Million and Two hundred and Sixty One Thousand and One Hundred Eighty four Shillings Only 2,226,261,184/

PART 5:

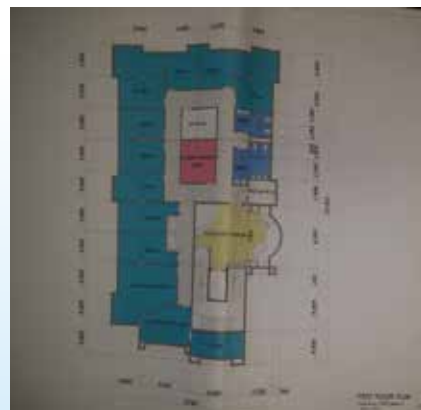

RE-IGNITED CONSTRUCTION PROCESS - POST 2014 ERA:

5.1 AGM Resolution

The Annual General Meeting in February 2014 discussed the Governing Council report on LAAC Project. The GC emphasized on compromised TLS capacity to commence construction basing on the opinion of the hired consultant in 2013 on the financial position. However, the AGM tasked the Governing Council of the Tanganyika Law Society to proceed with the next step of the project. According to available plan, the next step of the project is supposed to be construction process.

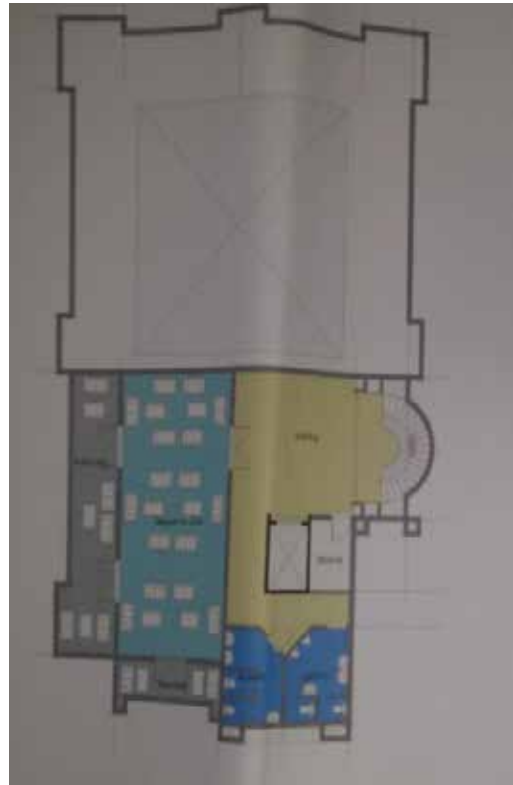

5.2 Council Steps towards Construction of the LAAC/Wakili House

The 2014 Governing Council reignited the process to construct the LAAC/Wakili house following AGM resolution to reignite the construction process. In the process of implementing the AGM resolution, the Governing Council invited the architect, who was engaged to undertake initial design of the structure, to inform the Council on the current status of the project and if possible proceed with the next step. The Architect informed that the remaining assignment is for TLS to sign the agreement that was long time presented to TLS but was yet to be signed. After thorough discussions, it was agreed that the architect should present the contract to be signed by the President and initiate construction process. Among other things, the Council and the architect agreed to go back to the earlier designed drawing and shelve the new designs so as to keep the construction costs low and in accordance with TLS financial capacity at the time.

First Floor Plan

Second Floor Plan

Third Floor Plan

Following the decision of the Council, the Architect presented a fresh contract to the Secretariat. The Secretariat reviewed the contract and informed the President that the contract is ready but before he puts his hand he has to review it critically and find out why did the previous President did not sign the same. Upon that advise, the President decided to discuss in detail with the Architect where he found out that TLS owes the Architect the costs of the second architectural design because the first architectural design was abandoned by the Council. This information prompted the President to convene an EXCOM meeting and then tasked the Secretariat to develop a status report of the Wakili House Construction.

5.3 EXCOM Resolutions

Following the above findings from available records at the Secretariat the EXCOM resolved the following;

1. That the Architect claims are valid and as they are Envirolink Limited is entitled for the payment in respect of the assigned task up to or to the

extent of the assignment performed so far.

2. That the EXCOM preferred to proceed with execution of the “first Architectural Designs and Supervisory Plans” to avoid costs of the “second Architectural Designs and Supervisory Plans”.
3. That in consideration of the first “first Architectural Designs and Supervisory Plans” the EXCOM resolved to discuss with the Architect on its preferences and the possibility of using the understanding of payment on the second “second Architectural Designs and Supervisory Plans” with a reduced price to execute “first Architectural and Supervisory Plans”.
4. That in alternative to the execution of the “first Architectural designs and Supervisory Plans”, the Architect be asked to use the first Architectural Designs by doing away with the construction of the basement contained in the designs and start with the ground floor.
5. That the EXCOM undertake negotiations with Envirolink in terms of supervisory price and designs according to the options above with a view of formally engaging him to undertake the construction assignment.

5.3.1 Implementation of the EXCOM Resolutions

In the course of implementing the EXCOM resolutions, a number of letters have been exchanged to the parties to make sure that a consensus decision is reached immediately. Thus, the following correspondences have been reached.

A letter to the Architect was drafted in June 2015 and informed him that:

- i) *The Executive Committee, on behalf of the Governing Council of Tanganyika Law Society, deliberated on the yet unsigned contract, copies of which you had sent to previous Council and later to the sitting Council. It took the current Council over a period of one year to sanitise the financial state of the project for them to determine if they are in a position to sign the contract.*
- ii) *All along the impression they had was that commencement of architectural work under the contract was awaiting signature of the contract. You kindly provided them with copies of the correspondence you had between you and the TLS leadership before their assumption of office, and they satisfied themselves that you had progressed architectural work significantly upon clear instructions from the TLS leadership and that you are entitled to payment for work done but that you had not raised your invoice up to this moment presumably because you were waiting for the contract to be signed. The Executive Committee would like to discuss with you as regards to what you are entitled to for the work done, agree with you on the*

payment modalities and the way forward.

- iii) *The initial thinking is that the estimated cost of the new structure will be too high for TLS to meet and the idea to look into the original concept and even then cut costs to a level affordable. In this regard they will not be signing the Concept Two contracts. Instead, the Executive Committee on behalf of the Council prefer to critically revert to Concept One, seek your advice on the possibility of doing so as soon as possible and if this is the option they will be going for, to agree on the terms and conditions of your resumption of services and sign the contract.*

Therefore, by this letter, please arrange with the Executive Committee of the Tanganyika Law Society through my office on your availability to conduct a meeting that will discuss several issues of this assignment and agree on the way forward.

Architect Response of that letter made on 1st July 2015 had the following:

Reference is made to the heading above and your letter ref: TLS/LAAC/JUNE/2015/125 dated 16th June 2015 informing us of Tanganyika Law Society (TLS) decisions on a number of issues as written in the said letter.

As item (iii) in your letter refers, shelving of Concept Two and reverting to Concept One, way forward for now is for TLS to pay 75% of the 9% agreed fees on Concept Two, Contract signing for Concept one and remaining 25% applicable as supervision fees for Concept One will be based on the contract sum of the successful contractor's contract with TLS. All the above explanations and Documents are contained in our letters ref: EL/EML/126/25 dated 1st August 2013.

As on basis for determining 75% of the 9% (design stage) fees for Concept Two, we find it prudent to apply the TZS 3,078,000,000 estimated construction cost of concept presented to you in our letter EL/EML/TLS/126/20 dated 14th February 2015 rather than one based on current cost rates, which will be much higher.

Kindly note that Concept One design fees had already been settled as acknowledged with our letter to you with reference no. EL/EML/TLS/126/21 dated 1st March 2012.

Hence we think that the proposed meeting between us and the Executive Committee of the Tanganyika Law Society may focus on issues of obtaining the Building Permit and procurement of a Contractor after issues of contract signing and settlement of outstanding payment have

been dealt with.

TLS response to the above letter made on 28th July 2015 was as follows:

The Tanganyika Law Society Executive Committee discussed your proposals contained in the letter referred above and decided that:

- i) the basis for determining 75% of the 9% (design stage) fees for the concept two applied from the estimated construction cost of TZS 3,078,000,000 is reasonable to the Tanganyika Law Society taking into consideration of the prevailing environment. i.e. 9% of TZS 3,078,000,000 is TZS 277,020,000; and 75% of 277,020,000 is TZS 207,765,000.*
- ii) basing on the current financial status of the WAKILI/LAAC Project it is prudent to initiate development of the first option (concept one) by settling half or rather 50% of the concept two fees to facilitate initial development of the project. i.e. 50% of 207,765,000 is TZS 103, 882,500*
- iii) if the offer to pay you 50% of the fees for concept two work done and delivered is accepted and agreed, TLS will be ready to sign the option one contract so that work starts immediately and the balance gets paid during the process of concept one development as will be determined and communicated in the due course.*

By this letter therefore, let us have your response so as we can move forward.

Architect Response in respect of the above letter made on 30th July 2015 had the following:

Reference is made to the heading above and your letter ref: TLS/CEO/JUL/2015/127 dated 28th July 2015 informing us of Tanganyika Law Society (TLS) decisions on a number of issues as written in the said letter.

The decisions contained in the above referred letter have been well received and agreed and as such Envirolink Architects Ltd has no objection on your decision/proposal to pay fees for concept two for the work done and delivered, starting with a 50% payment and the balance getting paid during the process of concept one development as TLS will determine and communicate in due course.

We also take note of your readiness to sign option one contract so that work starts immediately. How the contract signing will be conducted should be discussed and agreed as soon as possible

Please find submitted together with this letter a Fee Note/Invoice for the whole due payment with respect of concept two, which explained above is agreed for settlement in installments, starting with 50%.

Fee Note/Invoice Calculations:

Option two estimated construction costs is 3,078,000,000

Agreed whole fee for option two is 9% of the estimated cost=TZS 277,022,000

75% of the 9%, being fee for completed design stage Consultants work is 207,765,000

Add 18% Value Added Tax (VAT)= TZS 37,397,700

*Total amount of Fee Note/Invoice =TZS 207,397,700 + 37,397,700
= TZS 245,162,700 (VAT inclusive)*

We shall appreciate settlement of the Fee Not/Invoice as agreed. Our Bank account particulars when you will be paying are:.....

On that basis therefore, TLS committed and proceeded to pay 50% of the total invoice amounting to **TZS 122,581,350** and at the time the balance of TLS LAAC/ Wakili fund as at 31st July 2015 was **TZS 576,738,389**.

PART 6:

TENDERING, NEGOTIATION AND AWARD OF CONSTRUCTION CONTRACT:

6.1 Council and Committee Decisions on Tendering:

After the payment of the architect's fees in 2016, the Council resolved to proceed with the process of recruiting a contractor and agreed to use a short listing method. In other words, the Council identified a list of credible contractors under clear guidance and a rigorous process involving the architect in lieu to tendering process. This route ensured costs and time required for the identification of the contractor and tendering process are kept at minimum.

To facilitate the process the Council appointed a Construction Committee that comprises of five members to spearhead the construction process. Members of the Committee appointed were: Charles Rwechungura-Chairman; Daniel Welwel-Member; John Seka-member; Ally Jamal-Member; and Regina Sinamtwa-Member. Kaleb Gamaya-CEO was appointed to be the coordinator and John Mwang'ombola to advise on financial issues.

Through a joint Circular, the Committee authorized the architect to proceed with a "Short Listing Process" and preparing bid document for the contractors to bid before the Council appoints a contractor to proceed with construction work.

In 2016 a new committee for the LAAC Project was formed with the following members:

- | | | |
|----|---------------------|--------------------------|
| 1. | John Seka | - Chair person |
| 2. | Charles Rwechungura | - Council Representative |
| 3. | Casmir Nkuba | - Council Representative |
| 4. | Daniel Welwel | - Council Representative |
| 5. | Nuhu Mkumbukwa | -Member |
| 6. | Ibrahim Mohamed | -Member |
| 7. | Said Yakub | -Member |
| 8. | Regina Sinamtwa | -Member |
| 9. | Kaleb Gamaya | - Secretary |

The Architect through a Circular issued by the Committee¹¹ on 27th day of January 2016 by the LAAC/Wakili House Committee and signed on their behalf by the Chief Executive Officer conducted a shortlisting exercise and came out with the following names of contractors:

- i) China Henan International Cooperation Group
- ii) Afriq Engineering and Construction Co. Ltd;
- iii) Namis Corporate Ltd;
- iv) Masasi Construction Co. Ltd;

The Architect then instructed the Quantity Surveyor to prepare bid documents and present to the shortlisted contractors for them to present bid documents and it was done as so. The Architect then issued the tender documents to four shortlisted contractors on the 29th April 2016 whereby the deadline for submission of tender documents to the Tender Committee was set at 17th May 2016 at 1400pm.

A new building permit was then needed to be processed, and was therefore lodged by the architect at Kinondoni Municipality. TLS then successfully secured the Building Permit No 00018774.

6.2 Tendering Process

The tendering process started by drafting the tender document. The advert was drafted by the consultant and the LAAC committee approved it for publication in the newspapers.

6.2.1 Advertisement

The invitation of bids was publicly advertised on 11th August, 2016 in “Mwananchi” paper. The deadline of bids was on or before 23rd September, 2016 at 1400 hours local time. Bids were open for all firms and voluntarily formed joint ventures.

A total of 19 tender documents were sold out from the office of the Chief Executive Officer, Tanganyika Law Society to various interested Companies. The firms which purchased the tender documents are as listed in the following Table.

¹¹ This time around the LAAC/Wakili House Committee members were: Charles Rwechungura-President, John Beniel Seka-Honourary Treasurer, Daniel Welwel, Ally Jamal and Regina Sinamtwa.

Firms which purchased the Bidding Documents

S/Nr	BIDDERS NAMES
1	Holtan Builder Ltd

6.2.3. Evaluation Process

The Employer handed all documents of the submitted bids to the Consultants for evaluation. This assignment is part of the Consultancy Services and it is included in the Agreement.

6.2.3.1. Preliminary Technical Examination of Bids

Criteria considered

Bidders were examined in accordance with item 1.1 (Eligibility) of Qualification Information given in the Bid documents to determine whether each Bidder submitted:

- (a) Name and address (physical and postal) of registered office to the Company
- (b) Names and nationalities of Directors/Shareholders.
- (c) Copies of registration certificates and latest subscription receipts from Contractors Registration Board of Tanzania.
- (d) Copies of certificates of Registrar of Companies
- (e) Business license
- (f) Banker's reference (original) authorizing the Client to seek clarification from the Bidder's Bank.
- (g) Copies of Value Added Tax and Taxpayer Identification Number
- (h) Written Specific Power of Attorney authorizing the signatory to commit the Bidder for this project.
- (i) Any conflict of interest with either the Client or the Consultants
- (j) Legal status of Government owned entities.

6.2.3.2. Responsiveness to Preliminary Examination

Bidders who did not materially satisfy the criteria above were considered as substantially no-responsive and therefore not considered for detail technical examination while those who satisfied the criteria were considered for detailed examination.

KEY:

- Bidder No. 1- Group Six International Ltd
- Bidder No. 2- Rural & Urban Contractor Ltd JV Herkin Builders Ltd
- Bidder No. 3- Catic International Engineering (T) Ltd
- Bidder No. 4- Masasi Construction Co. Ltd
- Bidder No. 5- Nandhra Engineering & Construction Co. Ltd
- Bidder No. 6- Samcat (T) Ltd
- Bidder No. 7- National Service Construction Department
- Bidder No. 8- Mohamed Builders Ltd
- Bidder No. 9- China Henan Internatinal Cooperation Group Ltd
- Bidder No. 10- United Builders Ltd
- Bidder No. 11- Send Star Co. Ltd JV Dezo Civil Constructors Co. Ltd
- Bidder No. 12- Flintstone Engineering JV Pioneer Builders Ltd

Footnotes:

- FAIL¹ : In the list of current shareholders there is a name of Mr. Babubhai M. Ladwa holding 90.69 per cent of shares. The person with the started name died on 14th April, 2015 and the Bidder did not explain what happened to the deceased shares.
- FAIL²: The Bidder did not submit and subscription receipt from Constructors Registration Board.
- FAIL³: The Bidder submitted business license which expired on 30th June, 2016
- FAIL⁴: The Bidder did not submit current subscription receipt from Constructors Registration Board. The submitted subscription receipts are for the year 2014.
- FAIL⁵: The bidder did not submit any Banker's reference authorizing the Employer to seek clarification.
- FAIL⁶: The Bidder did not submit any information with respect to conflict of interest with either the Employer or Consultants
- FAIL⁷: The Bidder did not provide any information about names and nationalities of Shareholders and/or Directors.

6.2.3.3. Results of Preliminary Examination

The Preliminary Examination results are as summarized in Table 4 above and the special criteria considered are as shown under item 5.1 of the Report. From the Preliminary Examination, for (4) out of twelve (12) Bidders were found non-responsive and therefore passed into detailed Technical Examination. (The rejected Bids and the reasons for their rejection are detailed on footnotes, above).

6.2.3.4 Conclusion from Preliminary Technical Examination

From the Preliminary Technical Examination the following Bidders were determined to be substantially no-responsive and therefore were not recommended for Detailed Technical Examination:-

- (i) Masasi Construction C. Ltd
- (ii) Samcat (T) Ltd
- (iii) National Service Construction Department
- (iv) China Hena International Cooperation Group Ltd

The following Bidders were determined to be substantially responsible and were therefore recommended for detailed technical evaluation:-

- (i) Group Six International Ltd
- (ii) Rural & Urban Constructor Ltd JV Herkin Builders Ltd
- (iii) Catic International Engineering (T) Ltd
- (iv) Nandhra Engineering & Construction Co. Ltd
- (v) Mohamed Builders Ltd
- (vi) Unitd Builders Ltd
- (vii) Send Star Co. Ltd JV Dezo Constructors Co. Ltd
- (viii) Flintstone Engineering JV Pioneer Builder Ltd.

6.2.3.5 Details of Final Examination

Upon consideration of various factors which are included in the Tender Evaluation report presented to TLS by the consultants, *Flintstone Engineering JV Pioneer Builder Ltd* emerged winner and therefore was recommended for award. The same was discussed by the LAAC Committee and accordingly approved it for consideration by the Council.

6.3 Negotiation Process

Following acceptance by the Tanganyika Law Society (TLS) to consider project Tender Award to the lowest evaluated Bidder, M/S Flintstone Engineering – Pioneer Builders Ltd Joint Venture (JV), the Project Architect sent a Letter of

Intent to the firm, inviting them to negotiation and discussion on issues pertinent to the project execution with TLS.

As it can be noted from the bids, the JV was the lowest evaluated bidder at a corrected Bid Sum of TZS 2,910,937,019 (*Tanzania Shillings Two Billion Nine Hundred Ten Million Nine Hundred Thirty Seven Thousand Nineteen*) with a completion period of 56 weeks. On discussion, the bid Sum which is about 5% lower than the Consultant's Estimate of TZS 3,058,328,921 was noted to offer either little or no expectation of price discount from the bidder when TLS was to meet the bidder for negotiation.

In addition, the consultant noted that it was important to award the tender award before the Tender Expiry Date, which is 23rd December 2016 as extended from the letter of extension of bids and tenders acceptance.

6.4 Discussion on Other Project Issues

a) *TLS Proposals*1.

The discussion started and TLS presented its proposal on the plan to see the possibilities of adding more floors to accommodate the surrounding environments. The following were the proposals made:

1. Desire to add 2 floors at the top of the proposed project building for increased accommodation;
2. Ridding floor spaces of partitioning so as to achieve open plan office spaces;
3. Requested Consultants to facilitate the above requirements at either little or no additional fee charge;
4. Integrate the above requirements in the contract with the Contractor upon successful conclusion of the tender negotiation

b) *Consultants Comments on the Proposals*

Following the discussion process on TLS Proposal the Consultants noted the following:

1. Foundations and other structural elements were not designed to take any additional floors, so the need for 2 additional floors at the top will require redesign of the structure of the proposed building;
2. Removal or omission of floor partitions for open plan office concept will require architectural and services (electricity, water supply, waste water disposal and air conditioning) redesign in order to remove the partitions and relocate services that were designed to run through or along partition walls to be omitted;

3. The above required redesigns which will also lead to preparation of fresh Bills of Quantities are substantial, requiring Consultants resources and time. Hence in consideration of TLS request on additional fees for the additional works being to the minimum, Consultants will propose nominal additional fee levels, to be agreed with TLS;
4. TLS was requested to come up with a written request for the proposed changes, including names of uses on each of the floors under open office plan concept and in consideration of the additional floors;
5. Once redesigns are complete and prior to construction commencement a fresh Building permit shall have to be obtained from Kinondoni Municipal Council.

6.5. Project Tender Negotiations with the Successful Bidders.

Immediately after internal consultations the successful bidder was invited to join the team for negotiations. As such, M/S Flintstone Engineering – Pioneer Builders Ltd Joint Venture (JV) was informed that its tender for the LAAC projection which turned out to be the lowest evaluated at a corrected Tender Sum of TZS 2,910,937,019 (*Tanzania Shillings Two Billion Nine Hundred Ten Million Nine Hundred Thirty Seven Thousand Nineteen*) VAT inclusive, with completion period of 56 weeks led to the firm being issued a Letter of Intent and being invited to this Negotiation Meeting.

On 15th March, 2017 during Negotiation meeting, TLS requested for a discount from the JV on its corrected Tender Sum M/S Flintstone Engineering – Pioneer Builders Ltd Joint Venture (JV) appreciated reaching the negotiation stage, however expressed concern that its competitive tender allows for 15% profit only and will be subjected to overheads and risks of pricing mistakes they have discovered emanating from underpricing of aluminium handrails, floor tiles and aluminium doors.

Therefore, the JV refrained from offering any discount. Knowing that the JV's corrected sum is below the Consultant's estimate, no pressure was put on the discount request. M/S Flintstone Engineering – Pioneer Builders Ltd Joint Venture (JV) was informed that based on the negotiation, TLS will firm them on its decision for possible award in the near future and before Christmas, after completing the process within TLS organs. The firm was told to register the JV with BRELA and the Contractors Registration Board if it is awarded the tender.

Therefore, the president of Tanganyika Law Society as then he was on behalf of TLS, Mr. John Seka signed a contract of construction with representatives of M/S Flintstone - Pioneer Builders Ltd (JV) effective from 01st of May, 2017.

PART 7:

COMMENCEMENT OF THE CONSTRUCTION PROCESS:

7.1 Vacation of Site by TLS:

To pave way for the commencement of the construction, the Secretariat was needed to vacate the building that was to be demolished. Two options were navigated for housing the Secretariat, and one was Law School of Tanzania. TLS was able to negotiate and obtain allocation of rooms at the Law School of Tanzania. However later TLS opted for a property adjacent to the construction site for easy of follow-up and to save costs. The Secretariat vacated the site in May 2017.

7.2 Major Deliverables and Timelines at Commencement:

- ☐ Signing of the Contract: 15th March 2017.
- ☐ Contractor: M/S Flintstone Engineering in Joint Venture (JV) with Pioneer Builders Ltd
- ☐ Contract Sum: TZS 2,910,937,019 (*Tanzania Shillings Two Billion Nine Hundred Ten Million Nine Hundred Thirty Seven Thousand Nineteen*)
- ☐ Site vacation by TLS: 25th April 2017
- ☐ Date of contractor's Possession of site 1st May 2017
- ☐ Date of commencement: 1st May 2017
- ☐ Original Contract Period: 56 WEEKS
- ☐ Initial agreed completion date: 28th May 2018

7.3 Site and Contract Documents Handover to the Contractor:

The following contract documents were given to the Contractor by TLS as the client at the time of commencement of construction:

- i. Agreement and Schedule of Conditions of Building Contract
- ii. A copy of priced Bills of Quantities and General Specifications
- iii. A copy of blank (un-priced) Bills of Quantities and General Specifications
- iv. Two sets of Architectural Drawings
- v. Two sets of Structural Engineering Drawings
- vi. Two sets of Civil Engineering Drawings
- vii. Two sets of Electrical and Mechanical Engineering Drawings

7.4 Building Permit:

Initially, TLS received the Building Permit in March 2016. However, TLS did not manage to start the construction process within the specified period of the Building Permit i.e. within 6 months, due to unavoidable circumstances relating to procurement aspects of the contractor. Therefore, the validity of the permit expired before the kick off the project. The Architect was, therefore, required to lodge for extension application of the validity of the Building Permit to the authorities to enable construction process to proceed within the specified period. The extension was granted with effect from 7th Sept 2017.

Sign board evidencing construction commencement

7.5 Demolition of the Old Structure:

Demolition of the old structure was completed by end of May 2017.

Demolition of TLS House on plot 391

Figure 3 Site clearing after demolition

**Figure 4 Experts extracting
soil samples at Plot 391**

7.6 Geotechnical Study:

In pursuance of the Governing Council resolution, the Contractor was assigned an additional work to undertake a Geotechnical study at the construction site so as to get assurance of the plot worthiness in terms of soil and level of water table. The essence of this task was to allow the Project Structural Engineer can to confirm suitability of the structural design. The costs for the undertaking were included in construction costs and this is indicated under Part 8.

Geotechnical study was conducted after the demolition of the house plot no. 391 Chato Street Regent Estate Dar es Salaam in June 2017. Result of the study submitted to TLS indicated that the soil is suitable for proposed construction. However the report further indicated that there is need to strengthen the foundation in terms of the bars used to lay the foundation and pillars of the building. The recommended strengthening has had a cost implication (as approved by the Structural Engineer and Quantity Surveyor) as indicated in the costs variation under Part 8.

7.7 On Site Meetings:

As per project agreement and construction procedures, on site meetings do take place once per month. The idea is to make follow ups on the progress of the project. Between May 2017 and August 2019 24 onsite meetings were conducted successfully. All parties involved have been adequately represented in all onsite meetings including TLS as the client. Among other things, the Site meetings transacted the following key agendas:

- ☐ Conduct joint site inspection
- ☐ Verify compliance site preliminaries like availability of power, water, access roads, signboards, permits, material storage facilities, toilets.
- ☐ Relevancy and continuance of Performance guarantee and all risks insurance (to cover as much as the allowed time extension)
- ☐ Review Construction progress in accordance with the agreed construction schedule
- ☐ Standards of workmanship at each stage
- ☐ Procurement plan for the next construction stages
- ☐ Site management and Labour force

1st On site meeting conducted on 13 June 2017 by TLS Officials, Project Consultants and Contractor's representatives.

7.8 Project Representatives:

1. *Tanganyika Law Society* designated the following permanent representatives to the site meetings: Mr Kaleb L. Gamaya (CEO), Mr. Alphonse Gura (Business Development Manager), Mr John Mwang'ombola (Finance Manager) and Mr. Rashid Hassan Mbegele (Assistant Fundraising Officer) and Mr Charles Rwechungura.
2. *Flintstone Engineering & Pioneer Builders Ltd (JV)* were represented by Mr. Samuel Y. Mugeleta, Eng. Samson C. Makorom, Eng. Fekadu, Grad. Eng. Peter Antipas and Mr. Peter Benda
3. Eng. Faiz Ali Khan represented D a r e s s a l a m Glass Works Ltd
4. Mr. Rahimu W. Salimu represented LandLink Properties Ltd
5. Eng. Juma W. Mkunguna represented Chang Chun International Co. Ltd
6. Mr. Swaleh Z. Mulambo represented Secure 7 Systems
7. Mr. Lazaro Kibiwi represented Total Scope Alliance (T) Ltd
8. Eng. Joseph Rujweka represented Metro consult
9. Mr Mutesingwa Maingu and Mr. Richard Shumbusho represented Alpha Crown Electrics Ltd
10. QS. Adonis Kamala and QS. Haruni Richard represented Construction Services Consultants Ltd
11. Arch. Engelbert M. Lipambila and Mr. Joseph Luzangi represented Envirolink Architects Ltd

7.9 Environmental Impact Assessment (EIA):

It is a requirement under Section 4 of the Environmental Management Act of 2004 and the Environmental Impact Assessment Regulations of 2005 that construction projects require EIA to be conducted before the construction commences.

At the commencement of the LAAC construction there was an oversight to this requirement. EIA was not conducted. However EIA became a necessity when a bank loan was requested and when DAWASCO was requested to approve use of the DAWASCO sewage system. Also the engagement required an EIA certificate. Upon engaging the Consultant, it was learnt that the assignment cannot proceed unless NEMC are involved and the requisite penalties are complied with.

A Consultant was engaged to that effect known as TANSHEQ LTD in March 2019. EIA Project brief as prepared by the Consultant was then submitted to NEMC in May 2018. Initial contact with NEMC was made soon after to negotiate about the situation. A penalty of TZS 3,000,000/= was then imposed for failure to comply with the law and then a fee of TZS 10,000,000/= was charged for EIA processing. NEMC inspected the construction site in June and released the draft report in July which was worked upon and re-submitted to NEMC in July 2018. Upon re-submission the EIA certificate was eventually signed by the Minister and issued on 06th November 2018.

7.10. Development of Open Space for Car Parking:

Following the resolution made by the Governing Council (GC) through its meeting on 09th February 2018 which approved the conversion of the ground floor car parking into office space and confirmed through site meeting no. 10, the building remains with limited parking space with a maximum of 12 cars only. Throughout this remained as a key project risks because the building is used by members and most of the times there might be a need to accommodate 20 cars to 100 cars.

Some efforts, however, were made by making a formal application to the Municipal Council to allow TLS use the open space which is behind TLS building as a car parking space in May 2018. In their oral response, the Municipal Council required TLS to produce Concept designs by a registered landscape architect. A Registered landscape architect, Ms. Anita Christina was then employed by TLS to produce concepts designs in August 2018, and a formal application was delivered to the Kinondoni Municipal Council with the concept designs in November 2018. As required by the Urban Planning Regulations on the use of Open Spaces, TLS went ahead to engage with the Regent Estate street government and Mikocheni Ward government to obtain their prior approval and this was obtained in March

2019. Eventually TLS was granted approval to develop the open space by the Municipal Director for Kinondoni Municipal Council in May 2019.

With the issuance of the planning consent, it is expected that the open space will be developed to a parking lot that would accommodate 25 to 35 cars. But also there will be playground and modern garden. This will constitute major works between 2020 and 2022 whereby TLS will be required to develop of detailed architectural designs, obtaining construction permit from the relevant authorities and commencement of the construction works.

7.11. Interior Designing Works:

The current construction contract does not extend to interior designing of the building. The construction is at the its final stage which makes it vital to hire an interior designer. Interior designing is key to giving LAAC the image deserving for TLS members. Upon approval by Council for the Interior Designing Works, a call (RfP) was released for eligible firms to apply in February 2018. A number of bids were received but the process stalled to due uncertainty in financing. Management intends to resume the task about on a limited scope. In that case the terms will then be revised because most of the earlier terms are now obsolete. Equally important more cost effective approach will be employed.

7.12. Business Planning:

The governing also approved the business planning for the Wakili House in February 2018. The business planning process was also delayed due to uncertainty in funding. The process was resumed in February 2019 and completed by July 2019. The business plan shall lays down marketing viability and financial feasibility of the Wakili House/LAAC project; ensure ongoing return on Investment; ensure provision for existing and future office space, parking growth as well as synergy of other institutional needs and to encourage collaborative development and redevelopment of adjacent lands and open spaces to minimize financial risks. The Business Planning was done UPI INNOVATIONS AND DEVELOPMENT LTD as consultants.

7.13. Extension of period of time to complete the project:

The earlier plan was to complete construction within a period of 56 weeks. However there has been several extensions of the project timeframes for reasons beyond parties control. These extensions are covered below:

i. 1st extension of the Completion time

This was result of delay by 61 days due to undertaking of Geotechnical

Investigation as per architect's instruction. Second reason for this extension was a delay by 15 days due to adverse working conditions for foundation works due to high water table on site. Third reason was increased of scope of works by 14 days due to necessitated redesign of foundation footings.

Basing on that reasons **90 days time extension (13 weeks)** was granted without any extra cost in accordance with Clause 26, Sub Clause 26.2 of the conditions of contract. The effective commencement date of extension was **29th May 2018**, the new revised completion date was therefore **28th August, 2018**.

Foundation Setting challenges due to high water table on site

ii. 2nd extension of the Completion time

This was due to additional work resulted from electric fencing and part of the CCTV works. Item no.3 on Contractors table submits admission of project delay being also caused by contractor. This was supported by actual findings on site where by the project consultants granted **8 weeks time extension** without any extra cost in accordance with Clause 26, Sub Clause 26.2 of the conditions of contract. The effective commencement date of extension was **29th August, 2019**, the new revised completion date was therefore **24th October, 2019**

iii. 3rd extension of the Completion time

This was on account of additional works to the project pertaining to variation of part of ground floor converting it from car parking to offices with associated facilities. Basing on that reasons **13 weeks time extension**

was granted without any extra cost in accordance with Clause 26, Sub Clause 26.2 of the conditions of contract. The effective commencement date of extension was **25th October,2019**, the new revised completion date was therefore **24th January,2019**

iv. 4th extension of the Completion time

This was on account of additional works to the project pertaining to requirement of new fence wall and other external works, connection of sewage to the public sewer whose undertaking commencement was delayed by the late approval of the project Environmental Impact Assessment by relevant authorities. Also there was a delay on TLS to make full payment of interim payment certificate No. 09. Project consultants considered assessment accept the request and grants a **13 weeks time extension** was granted without any extra cost in accordance with Clause 26, Sub Clause 26.2 of the conditions of contract. The effective commencement date of extension was **25th January ,2019**, the new revised completion date was therefore **26rd April,2019**.

v. 5th extension of the Completion time

This was on account of additional works to the project pertaining to requirement of constructing PVC ceiling on soffits of 1st Floor slab cantilevering externally above the ground floor. Supply and installation of additional 4 distribution boards (DB) for clean power, one at each floor and one for UPS, additional works to the fence wall pertaining to an added ground tie beam and an additional column as per Architect site instruction and additional works to the project pertaining to the decision during site meeting no 24 of 30th April 2019 to instruct contractor to rehabilitate the existing septic tank and constructing a makeshift soak away pit for temporally sanitary waste disposal as permanent connection to main public sewer by DAWASA is awaited.

Project consultants considered assessment accept the request and grants a **8 weeks time extension** was granted without any extra cost in accordance with Clause 26, Sub Clause 26.1 (c) and 26.2 of the conditions of contract. The effective commencement date of extension was **27th April,2019**, the new revised completion date was therefore **22nd June,2019**.

vi. 6th extension of the Completion time

This was on account of exceptionally inclement weather, whereby there were 3 weeks of intermittent or sometimes continuous rains hindering undertaking of external works. There were also delay of fence wall construction caused by compliance to TTCL's requirement to permit

shifting of a telephone pole which was on the path of the fence line and TLS's delay in settling IPC No.13.

Project consultants considered assessment accept the request and grants a **4 weeks time extension** was granted without any extra cost in accordance with Clause 26, Sub Clause 26.1 (b), (h), (j) and 26.2 and Clause 6.0 and Sub-Clause 6.1 of the conditions of contract. The effective commencement date of extension was **23rd June,2019**, the new revised completion date was therefore **21st July,2019**.

vii. 7th extension of the Completion time

This was on account of delay by Tanzania Rural and Urban Road Agency's (TARURA) in issuing instructions on the construction of the front side access from Chato Road to the proposed front Car parking for the LAAC building across the roadside drainage channel. TLS's delay in settling IPC No. 13 (last part of outstanding payment was made on 13th August,2019 contrary to earlier expectation of 05th August,2019 as informed by TLS – 1 week later).

Project consultants considered assessment accept the request and grants a **2 weeks time extension** was granted without any extra cost in accordance with Clause 26, Sub Clause 26.1(h), (j) of the conditions of contract. The extension excludes completion of works waiting TARURA's instructions, which if not obtained by 20th August 2019, may be permitted to undertaken during defects liability period. The effective commencement date of extension was **20th August, 2019**, the new revised completion date was therefore **03rd September,2019**.

PART 8:

LAAC EXPENDITURES:

8.1. Financial Status of the LAAC Project at the time of commencement of construction:

As at 1st April 2017 the balance of the Wakili House project fund was TZS 801,497,293.34. This amount was constituted with TLS LAAC funds amounting to TZS 518,702,519/13 at Womens' Bank account plus TZS 282,794,774/21 at CRDB Bank account.

8.2: Funds Expenditure Incurred Before Construction Commencement:

On the other side some payments were made from the LAAC account for various expenses. In this case a total of verified payments amounting to TZS 139,554,961 were made since 2008 to 2014 as it can be seen herein below:-

S/N	Year	Payments
1.	2008	42,268,970
2.	2009	30,065,184
3.	2010	4,227,907
4.	2011	3,696,200
5.	2012	50,762,700
6.	2013	8,251,000
7.	2014	<u>283,000</u>
	Total	<u>139,554,961</u>

Some of the details of the payments made were as indicated in the table below:

Date	Chq No	Payee	Purpose	Amount
14.03.2011	249967	Adam Mihayo	Consultancy fee- Financing Options	3,500,000
13.02.2012	249967	Envirolink Architects Ltd	Preparing Architectural Drawings for Wakili House Project	50,000,000
28.03.2013	249970	Chacha Gebani	Consultancy fee-As- sessing Viability of the implementation of the project.	5,000,000

11.09.2009	249953	Praxeda Lushagara	Office Rent	9,094,200
09.02.2009	249948	Praxeda Lushagara	Office Rent	10,000,000
		CRDB Bank	Bank charges	3,703,689
19.12.2008	249947		Fund Rising Functions	24,356,000
TOTAL				105,653,889

8.3 Unsupported Payments:

In 2016 annual audit it was noted that a number of expenditures had been made in the past particularly between 2008 and 2011 that lacked documentation to support the expenditures. This was the time when TLS did not have a professional accountant and as a result financial data were not properly kept.

After a thorough analysis of the records, the audit exercise and information gathered and compared to available bank records within TLS, a total of amount of TZS 34,498,841 were established to be void of supporting documents for the payment. The details of the said payments are shown below:-

S/N	Date	Chq No.	Amount
1.	21/10/2008	249917	409,350
2.	24/10/2008	249919	500,000
3.	30/10/2008	249927	1,000,000
4.	30/10/2008	249922	695,000
5.	30/10/2008	249920	350,000
6.	31/10/2008	249932	750,000
7.	31/10/2008	249921	1,218,000
8.	01/11/2008	249931	1,000,000
9.	03/11/2008	249935	260,000
10.	03/11/2008	249928	540,000
11.	04/11/2008	249923	2,000,000
12.	04/11/2008	249937	3,400,000
13.	04/11/2008	249925	2,180,000
14.	10/11/2008	249918	780,000
15.	11/11/2008	249926	560,520
16.	13/11/2008	249929	750,000
17.	14/11/2008	249941	550,000
18.	18/11/2008	249934	1,965,200
19.	24/11/2008	249934	504,000

20.	10/12/2008	249945	2,790,000

8.3. Expenditures after Commencement of Construction:

Major expenditures after the commencement of the construction were catered in servicing the Interim Payment Certificates (IPCs), architect's fees, environment impact assessment (EIA), business plan development and landscape concepts designs for the open space near Wakili house.

The following table shows the dates and amount issued by contractor from commencement date until to date.

IPC No.	Submission & Certified Date	Amount certified	Amount paid	Remarks
1.	10 th /07/2017	291,093,702	291,093,702	Paid
2.	13 th /09/2017	281,933,254	281,933,254	Paid
3.	30 th /10/2017	111,355,495	111,355,495	Paid

	GRAND TOTAL	<u>3,040,799,330</u>	<u>3,040,799,330</u>	paid

8.4 Project Cost Variations:

The project had total cost variation of **TZS 596,802,233**. The variations were inevitable variations have been occurred as additional cost which resulted to increase of contract sum from **2,910,937,019** to **3,507,739,252**. The following are those variations and their cost during the implementation of LAAC PROJECT;

- i. Geotechnical investigation which was not among the original contract works a total amount of **TZS 19,652,473** VAT inclusive.
- ii. Substructure variation and re-measurements emanating from revision of structural engineering foundation drawings done following the site geotechnical investigations a total amount of **TZS 105,167,479** VAT inclusive.
- iii. Variation implication on reinforcement steel discrepancy between drawings and bar bending schedule **TZS 54,688** VAT inclusive.
- iv. Consultation fee for conducting EIA **TZS 13,332,230**
- v. Costs for registering the EIA Project at NEMC **TZS 10,000,000**
- vi. Costs for settling the NEMC penalty **TZS 3,000,000**
- vii. Variation works including changes in layout plan, change from glass wall to glass block at the spiral staircase, change of bars, introduction of new beams and granite tile to lift shaft wall **TZS 21,823,498** VAT inclusive
- viii. Variations in the ground floor plan particularly the conversion of ground floor parking to office space **118,596,567** VAT inclusive
- ix. Additional cost with regards to power connection arising due to changed location of the transformer **TZS 29,263,851.97** VAT inclusive
- x. Variation on additional cost with regards to CCTV, Access Control, Public Address, Electric Fencing & Videoconferencing amount to a net of **TZS 135,285,749.20** VAT inclusive
- xi. Variation of Cost Level for Construction of a New Fence Wall and External **121,736,323** VAT inclusive.
- xii. Request for approval of Recommended Cost for Building Name signage **TZS 8,001,875** VAT inclusive
- xiii. Construction of the Parking Lot at the open space behind LAAC Building. A Landscape Architect has already been engaged and concept designs submitted to Kinondoni Municipal Council for Planning Approval. The Architect Fees for the whole works including concept designs, detail designs, BOQ preparation and supervision of landscaping works stands at **TZS 10,887,500/=** VAT Inclusive.
- xiv. Variation of cost level for additional works – open drainage Channels, Aluminium Profiles and Variations for ICT & Security stand **12,912,449.72** VAT inclusive.

PART 9:

PRACTICAL COMPLETION, DEFECTS LIABILITY AND PRE – HANDOVER INSPECTION:

9.1 Introduction:

Following indicated 98% completion of the LAAC Project to the Project Architect by the Contractor; inspection of the works was conducted on 4th October 2019 for the Project Architect to verify completion and accordingly form opinion on whether practical completion had indeed been achieved. TLS participated fully in the inspection. After conducting the inspection and listing below observed defects, the Project Architect declared the works practically completed; and in accordance with **Clause 17.0, sub-clause 17.1 of the Contract** issued the **Certificate of Practical Completion**.

LAAC Building at its final stage

9.2 List of Defects, Outstanding items and Instructed Action

The inspections team of the noted the following snags after inspection:

1. Sewage connection from Wakili House to the public sewer has not been done due to DAWASA's delays in responding to Contractor's application for the works, which as per statutory requirement has to

be done by DAWASA itself.

Decision: As decided and agreed during site meetings, the connection will be done during the Defects Liability Period, as DAWASA's quotation had already been received.

2. Existing septic tank which was to be demolished as part of the project works had to be retained to initially serve Wakili House for disposal of sewage.

Decision: It shall be demolished and the location made good during the Defects Liability Period after sewage connection to the public sewer has been done.

3. Car access to the front car parking from Chato Street/Road which has to be by driving on a covered roadside channel after getting statutory permission from TARURA, hereby it is now an open channel, has not accordingly been constructed to that adaption.

Decision: Contractor was instructed to undertake it during the Defects Liability Period with TARURA's permission

4. The left hand side (LHS) fence wall had to be temporary completed in block wall because it rests on part of the septic tank. Actual fence has design pattern as the rest of the new fence wall.

Decision: During the Defects Liability Period and once the temporary block wall and septic tank are demolished, the actual wall will be constructed. However TLS has indicated to have a car gate instead so as to be allowing parking of office cars at night.

5. An old concrete manhole cover at the front car parking mismatches in quality with surrounding paver blocks.

Contractor was instructed to replace it with a fresh one.

6. Area surrounding a telephone pole and an area where the TLS water meter was removed from the front car parking have paver blocks not well constructed.

Decision: Contractor was instructed to make them good.

7. Front and rear gates are mounted too low.

Decision: Both will have to be raised; and the rear one should have its head frame in line with the top blue molding on; adjoining columns.

8. A preserved ashok tree on the RHS parking lot denies the lot of a car parking place and security camera view.
Decision: TLS advised to decide on whether to cut the tree for an additional car parking place.
9. Foul water and services manholes/chambers are similarly covered and not easy to distinguish.

Decision: Contractor was instructed to label them according to what they serve and as specified by the Services Engineer.
10. Electrical security wire system at the top of the boundary fence not yet provided.
Contractor was reminded to do the required works.
11. Some external lights, including those in grass lawn areas have not yet been installed.
Decision: Contractor was reminded to install them.
12. GF reception desk which was custom made/constructed by a TLS separately appointed furnisher lacks top power points.
Decision: Contractor was instructed to install pop up power & data units in collaboration with the furnisher.
13. Services wall trucking has not yet been fixed in the 2 GF large office spaces.
Decision: Contractor was reminded to fix them and incorporate the required services.
14. Project Services Engineer recommended fixing of hidden “led tube” lights under the front boards of the reception desk.
Contractor was instructed to install them in collaboration with the furnisher.
15. Gender signs (male/female) have not yet been fixed on toilet main doors.
Decision: Contractor planned to fix them on the following day.
16. WC room doors are without pull handles inside and difficult to open.
Contractor was instructed to fix handles inside of all WC rooms.

17. TLS want hooks fixed behind all toilet doors for hanging clothes.
Decision: *Contractor was accordingly instructed to fix approved hooks at 1800 mm level from floor.*
18. Hand driers are yet to be fixed in toilets.
Contractor was reminded to supply and fix them as per sample previously approved by Services Engineer.
19. GF rear security door still defective and scratching the floor even after recent repairs by Contractor's supplier.
Decision: *Contractor was instructed to replace it with an intact one.*
20. Fire alarm system not yet installed in the building.
Decision: *Contractor was reminded to install it as soon as possible and before fire authority visits to inspect the building.*
21. The communication window made on the lift lobby window of the CEO's secretary was crudely done.
Decision: *Contractor instructed to replace the glass pane with a circular hole properly made prior to fixing. A tray opening should also be provided at the bottom. Edges of all exposed cut glass should be smoothed.*
22. Tearooms and some toilets do not have air ventilation.
Decision: *Project Services Engineer will come up with a solution for providing mechanical ventilation in tearooms, while in toilets curtain wall opening panes will be provided to each toilet.*
23. There remain unsealed gaps between floors and between dry wall partitions to the glass curtain wall.
They should be sealed/closed with ACP boards using silicon.
24. As it had rained during the inspection, traces of rain drops were spotted in the rear RHS office in the 1st floor.
Contractor was instructed to trace the source of the leakage and remedy it
.
25. There were leakages at tearoom kitchen sinks.
Having observed that the cutting out of the granite top for holding of the sink having not been done properly in terms of sealing off any

water spilled on the top, Contractor was instructed to redo the fixing and installation properly.

26. CEO's toilet floor is dirty.
Decision: Contractor was instructed to clean it.
27. There are a few damaged/broken floor tiles randomly.
Contractor was instructed to replace them with intact ones.
28. Light fitting installation in the Conference Hall has not been completed.
Contractor was reminded to complete the installation.
29. Design and construction solutions to minimize sun light through the sky roof into the Conference Hall were applied.
If TLS/users will still feel the amount of light to be excessive, TLS is advised to resort to covering the glass areas with dark tint stickers to further reduce the amount of light transmission.
30. The slopes of balustrade rails for the dog-legged staircase mismatch the staircase slope, depicting poor workmanship. This defect was first pointed out to Contractor during Site Meeting No. 23 held on 2nd April 2019, but has not been made good.

Contractor was instructed to make good the balustrade handrail and lower rails to have them slope at the same angle as the staircase flight during the Defects Liability Period
31. Changing of electrical services duct covers to aluminium louvre shutters and cover the duct at floor level with fire proof materials.
Contractor was instructed to undertake the changes during the Defects Liability Period.
32. The server room on the 3rd floor, which also accommodates lift control equipment, has a security steel grille at the entrance door. During inspection it became apparent that the grille incorporating a door would better be shifted to the middle of the room, securing the server equipment, yet allowing easy access of the lift control equipment through the room's main glass door.
Contractor was instructed to implement the variation as soon as possible.

33. The flat roof top over the Conference Hall has hair cracks on the top screed finish.
Contractor has to redo the screed to make it good.
34. Other outstanding electrical works:
i. UPS installation
ii. Installation of Power Factor Correction Equipment (PFCE) on Main Electrical Panel.
iii. Installation of Floor power boxes (Pro-boxes) in the Conference Hall
iv. Installation of power surge arrestors
Contractor was instructed to undertake these outstanding electrical works as soon as possible during the Defects Liability Period
35. Outstanding ICT works:
I. PA & video conferencing systems installation
II. CCTV installation
Contractor was instructed to undertake these installations as soon as possible during the Defects Liability Period.

9.3. Defects Liability Period

As indicated on the Certificate of Practical Completion the **12 months Defects Liability Period** will end on **4th October 2020** and in accordance with **Clause 17.0** of the **Contract**, - **sub-clause 17.2** any defects, shrinkages or other faults which appear within the period which are due to materials or workmanship not in accordance with the Contract shall be specified by the Architect in a schedule of defects which he shall deliver to the Contractor not later than 14 days after the expiration of the Defects Liability Period, and within reasonable time after receipt of such schedule, the defects, shrinkages and other faults therein specified shall be made good by the Contractor **at his own cost**.

Notwithstanding the provision of sub-clause 17.2, under **sub-clause 17.3** the Architect may whenever he considers it necessary to do so, issue instructions requiring any defects, shrinkages or other faults which appear within the period which are due to materials or workmanship not in accordance with the Contract to be made good and not later than 14 days after the expiration of the Defects Liability Period, and within reasonable time after receipt of such schedule, the defects, shrinkages and other faults therein specified shall be made good by the Contractor **at his own cost**.

Hence apart from the outstanding defects which have herewith been issued any

other defects, shrinkages and other faults which **Tanganyika Law Society** shall note during the Defects Liability Period, shall be notified to the Architect, who will handle such issues in the manner governed by **Clause 17.0** of the **Contract**, sub-clause **17.2** or **17.3**

9.4. Reminder for Preparation and Providing “As built” Drawings, Operating and Maintenance Manuals

Architect’s letters ref: EL/EML/TLS/126/180 dated 4th April 2019, EL/EML/TLS/126/185 dated 2nd May 2019 and ref: EL/EML/TLS/126/195 dated 16th July 2019 reminded the Contractor to be preparing “as built” drawings and compiling operating and maintenance manuals covering contract works. Contractor was reminded about the requirement, which has to be delivered within one month from the date of Practical Completion. Operating and maintenance manuals are provided with most, if not all electrical, air conditioning and fire & safety systems, plant and equipment from manufacturers and suppliers.

As regards “as built” drawings, their defining difference from original contract drawings are all the changes which have been made during construction resulting in alteration to architectural, structural & civil drawings and services installation (electrical, fire safety, etc.) layouts.

9.5. Project Handover

With the Certificate of Practical Completion issued, the Architect allowed Contractor to handover the project to the Employer.
