(2) FIDIC CONTRACTS TRAINING COURSES

(With Project Site Visit)

Palace Hotel, Arusha

08th – 12th February, 2021

FIDIC Module 3: Responsibilities and Duties of Adjudicators and Parties under FIDIC Contracts (08th & 09th)

FIDIC Module 4: Contract Management and Administration of 1999 FIDIC Contracts (10th & 11th)

Project Site Visit (Arusha): 12th February 2021

Association of Consulting Engineers Tanzania (ACET) have organized a 5 – days CPD course on FIDIC Conditions of Contracts – Module 3 and Module 4 **(With Project Site Visit)**. The two (2) training courses with project site visit will take place from **08th – 12th February 2021** at **Palace Hotel in Arusha**.

COURSE OVERVIEW

These two training programs are continuity of the previously held FIDIC Conditions of Contract Course (Modules 1 & 2) on 16th – 19th November 2020 at Morogoro Hotel in Morogoro. The current training programs include project site visit to enhance the learning process.

Delegates must not only gain knowledge and skills from classroom training, but also apply their new knowledge and skills to their daily work. Project site visit intends to assist delegates on how to apply new skills and knowledge in a real project setting, a crucial part that will help delegates apply the skills and knowledge on FIDIC Contracts Conditions correctly and with confidence.

The international Construction Industry throughout the world is increasingly using the FIDIC Conditions of Contract. The Multi-Lateral Development Banks, including the World Bank, Islamic Bank for Development and Asian Development Bank as well as the African Development Bank have adopted the FIDIC Conditions of Contract for Construction with modification. The broad content (modules) that will be covered in this training include:

FIDIC Module 3 – Responsibilities and Duties of Adjudicators and Parties under FIDIC Contracts: The objective of this module is to explain the procedures and application of the Dispute Adjudication requirements under these contracts, providing a comprehensive understanding of DAB *(Dispute Adjudication Board)* processes and procedures, together with in-depth practical knowledge and problem solving scenarios.

FIDIC Module 4 – Contract Management and Administration of 1999 FIDIC Contracts: The objective of this module is to give the delegates a sound grounding in the practical procedures and management disciplines required in undertaking FIDIC Contracts whether representatives of the Employer, Engineer or Contractor. It provides guidance and checking systems though all periods of the Contract from Award to Completion with challenging work exercises for all the delegates.

The two courses have been designed to offer a complete and effective understanding and application of the FIDIC Conditions of Contract and the working Dispute Adjudication Boards.

WHO SHOULD ATTEND

This course targets the Government and its Agencies/Institutions, the Private sector, Contracting Authorities, Engineers, Consultants, Contractors, Architects, Quantity Surveyors, Procurement Personnel, Contract Management Specialists, Legal Advisors, Project Managers, Auditors, Quality Assurance, Donors and ALL those involved in the management of Large Works Contracts

COURSE RECOGNITION

The courses are regarded by FIDIC as providing part of the appropriate training for any person wishing to apply to the National Adjudicators' lists of FIDIC. The courses are also accredited by the Engineers Registration Board of Tanzania and registered engineers attending these modules will be awarded certificate of completion with PDUs.

COURSE TUTOR

Course instructor is FIDIC Accredited Trainer Eng. Dr. Kumbwaeli W. Salewi. He is a registered Consulting Engineer, Professional Engineer, Mediator, Adjudicator and Arbitrator with over 35 years' experience in the Construction Industry. He possesses a solid and profound knowledge in the FIDIC 1987 Contracts, the FIDIC 1999 Suite and latest 2017 edition either through delivering training on similar contracts or hands-on experience. His experience covers various sectors including design, supervision and commissioning of infrastructure projects, procurement, construction contracts administration, dispute resolution through adjudication and arbitration.

He is also certified trainer for project management in the industry and academia. Dr. Salewi is a member of Association of Consulting Engineers Tanzania (ACET), Fellow of the Institution of Engineers Tanzania (FIET), Fellow and Chartered Engineer of the Institution of Civil Engineers UK, Fellow of the American Society of Civil Engineers USA and Associate at Tanzania Institute of Arbitrators (TIArb)
